About the continuity of the urban context
台北光華商場特區規劃

THE PLAN OF GUANG-HUA BUSINESS PARK IN TAIPEI

曾經台北盆地是水道縱橫的地方。從淡水河沿岸開始建立聚落，之後清朝建立台北城，日治時期(1895-1945)開始有規模地都市計劃和擴張，到光復後這一連串的發展。不但使人們和河的關係疏離了，各種路和橋的興建，連結地域的同時，也不斷地切割都市的空間。光華商場附近的這塊基地，即是各種城市作用力下的「剩餘地」。然而，這塊基地上早已存在著台北市最重要的電子商圈，周邊的建國啤酒廠和華山特區，也逐步規劃為藝術特區。因此，如何重新整合和規劃這塊基地，成為台北都市更新和活化的重要關鍵。如何從一層層記憶的紋理，來重新連結周邊各種商業、藝術、居住和公園空間，是這個設計最重要的企圖。
Taipei city was full of rivers in the past. With the rapid growth of urbanization, some rivers had been disappeared, but some flowing waters are still under the ground. Some culture and business parks surround the site. The design concept is uncovering layers of urban context to connect the past and the future.
Uncovering the layers of the urban context

Following the disappeared rivers to connect the urban context

Connecting culture park

Connecting greenbelt
The process of connecting the urban context

Opening the flowing water under the ground

The water becomes the main factor

Following and connecting the urban context

The greenbelt meets the water

The urban context says the past and the future
是充满交流善意的和保留原有闲适的气氛。利用错落的宽矮墙，来形成一道可坐可卧的边界。
The vision of Guang-Huabusiness park in 2015
